Job Title:

Pumpen
Elektromotoren
Schweißfachhandel

Service Technician (m/f/d) for Electrical Machine Construction and Pumps

- Join our team immediately and on a permanent basis. Your role in our team:
- You will be responsible for the installation, repair, modifications, as well as the execution of regular maintenance and inspection machine repairs.
- Additionally, you are accountable for ensuring timely and professional technical service for our customers.
- Your tasks also include instructing users on the customer side in the commissioning and operation of the machines.
- You provide sales-supporting technical advice for our service offerings.
- You are involved in the implementation of projects, such as the construction of pump systems and control engineering/energy efficiency technology.
- Furthermore, you document the service interventions.

Your profile:

- You have completed vocational training in a technical field, preferably in mechatronics, electrical machine construction, electrical engineering, or mechanical engineering/welding.
- Ideally, you already have some professional experience.
- Structured and independent work is part of your skills.
- You are characterized by strong customer/service orientation and communication skills.
- Class B or 3 driver's license.
- You work and act with passion and want to support us with dedication and flexibility.

Your working environment at Enßlen GmbH:

Enßlen GmbH has been an owner-managed company since 1969. We are a service provider for industry, municipal utilities, agriculture and energy, as well as the end consumer sector. We supply, repair, and build systems. Welding technology, pumps, and drive technology are our fields of activity.

Your benefits:

- Permanent full-time employment with above-average pay, including holiday and Christmas bonuses.
- Work-life balance: modern working hour model based on 37 hours.
- Benefits: company pension and health insurance, free drinks on-site.
- Structure: You can expect a diverse and exciting working environment within flat company structures.
- Team: Thorough training in-house and by experienced technicians during joint assignments.
- Recognition: You are a full-fledged member in an open and collegial environment and take on responsibility from the beginning.
- Development: With our work, you have numerous opportunities for shaping and diverse development perspectives. We offer internal and external training.
- Security: Future-proof and crisis-resistant industry with over 50 years of company stability.
- Connection: Proximity to the A14 motorway, IC/ICE train station, and company parking.

If you identify with this profile, then Enßlen is the right place for you. We look forward to getting to know you!
